ACCESSORIES

Product Code

UTC-0370 Flextural Test Device for Flexural Tests on Concrete Beams

Standards

EN 12390-5; ASTM C78, C293; AASHTO T 97

UTC-0370

Flexural test device for center-point or two-point (third-point-ASTM) loading flexural tests on concrete beams of 100x100x400-500 mm,150x150x600-750 mm. Consist of two upper rollers and two lower rollers of 25 mm dia. and 160 mm lenght.

- **Capacity: 150 kN**
- **Total height: 365 mm with 150 mm beam, 290 mm with 100 mm beams.**
- **Distance between upper rollers:** 100 mm or 150 mm
- **Distance between lower rollers:** 300 mm or 450 mm
- **Max vertical daylight:** 160 mm for 150mm beam
- **Min vertical daylight:** 110 mm for 100mm beam
- **Max travel :** 40 mm
- **Total width :** 310 mm

Usable with all Utest compression testing machines by replacing UTC-0370 with lower platen.

Dimensions	600x365x310mm
Weight (approx.)	41 kg
