Standards

EN 1097-3, 12350-6

Density (Unit Weight) Measures are used to determine the weight per cubic meter of bulk or compacted aggregates.

The Density Measures are manufactured from heavy duty steel complying with the related standard.

Available in 1, 3, 5, 7, 10, 15, 20 and 30 lt capacity models to comply with the relevant standards. The measures are coated against corrosion.

Product Code	Dimensions	Weight (approx.)
UTA-0701E	100x170x150 mm	2.8 kg
UTC-0603E	150x210x210 mm	3.7 kg
UTA-0705E	170x240x250 mm	5 kg
UTC-0607E	190x260x270 mm	6.3 kg
UTC-0610E	250x290x310 mm	7.7 kg
UTC-0615E	250x340x330 mm	10 kg
UTA-0720E	270x370x380 mm	12 kg
UTC-0630E	310x410x430 mm	20 kg
